STATIC SEAL™ Compression Couplings

Originally designed for plastic resin conveying and in use extensively throughout Europe and Asia, these lightweight couplings are well suited for any dilute phase vacuum or pressure application with static pressures up to 60 PSI.

Stainless steel couplings for lower pressure dilute phase conveying and industrial vacuum applications

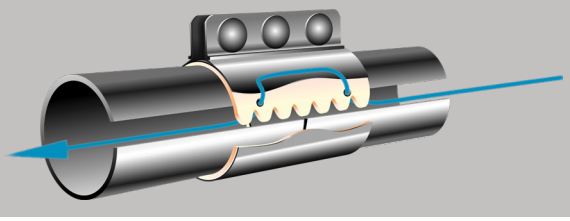

Static Seal coupling features:

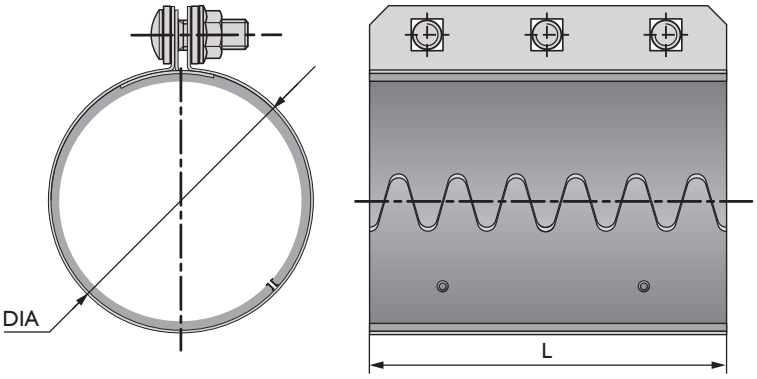

- 2 or 3 bolt configurations
- Advanced “Eyelet” design for superior static conductivity
- Sizes ranging from 1.50” OD to 4.00” OD
